Ron G. Crane
Treasurer of the State of Idaho

*Inclusion as a designated state depository is based only on the requirements set forth in Idaho Code §§ 67-2725 to 2726 and is not an indication of financial soundness or an endorsement of an institution by the State of Idaho or the Office of the Treasurer. Designation as a state depository does not guaranty a deposit of funds or prevent the withdrawal of funds by the Office of the Treasurer. The Treasurer may revoke designation as a state depository at any time, in his sole discretion. Investors should conduct a thorough investigation of a financial institution and weigh the risks and benefits of the investment prior to depositing funds or making any investment with a financial institution.
